E-mail: ray.shreya19@gmail.com

Currently I am working at NICE systems, where my work involves supporting customers as a Tech Lead Software Engineer in the domain of fraud detection / financial crime detection applications. (6th Dec 2021 – till date)

I was working as a Bilingual Software Engineer (Application Developer) at Fujitsu Consulting India at Pune, India from 6th Feb 2017 – 3rd Dec 2021.

At Nomura Research Institute Financial Technologies Pvt. Ltd. I worked as a Java Developer and a Japanese Language expert. I have worked in Japan as a Bridge Software Engineer, maintained business communication between teams in Kolkata and Japan. (2014-15).

Fujitsu Organizational Projects Details:

At Fujitsu, I was working as a team lead for a Java based project in the Insurance domain. I had worked for 10 projects in Fujitsu. First one was on analysis of impact on upgrading java versions. I had been given training in Software development and quality management process in May 5th to 31st and imparted training on the same in Chennai and Pune to a new batch for the same project as a trainer with Japanese Clients. I have experience of imparting training for 4 batches of employees in project related information. The third project involved migration from Seasar 2 to Spring 4 and JDBC template to Hibernate 4. I have created tools in Java involved in reading and comparing XML and Excel data for generating a report. I have worked on other technologies as well, like Microsoft Access and VBA for creation of tools to manage work flow and file status. Till date I have acquired the experience of using the following tools and technologies:

1. Core Java
2. Maven 3.0.3
3. Tomcat 8.5
4. JavaScript
5. CSS
6. HTML 5
7. Spring Framework 4
8. Hibernate 4
9. Apache POI for Excel
10. Git repository tool
11. SVN tool
12. Microsoft Access database
13. Visual Basic for Application

Past Projects Details:

I have had the experience of working in Japan for a year onsite at NRI (Nomura Research Institute) for business communication on front office systems of securities market. I worked as a Java developer after returning to office at Kolkata on January 11th 2015. At NRIFintech, I had developed business components based on the requirements in the financial domain.
